Name and organisation of the corresponding author and the affiliations of all co-authors should appear on the poster.

SIZE

The poster must be no larger than **portrait A0** (i.e. 84.1cm x 118.9cm or 2.759ft x 3.900ft). **Please ensure that your poster does not exceed this size.**

LETTERING

The poster should be easily readable at a distance of two metres. Use both upper and lower case for general content as the use of all-capital text is difficult to read. Avoid using mixtures of type/font styles.

RECOMMENDATIONS

TYPE OF TEXT	SIZE OF CHARACTERS	CASE / STYLE	GENERAL ADVICE
TITLE	2.0-2.4 cm or 100 point maximum	Title Case / Bold	At the top of the poster include the title of the presentation, the name of the authors and the details for the corresponding author.
HEADINGS	48 point is suggested 60 point maximum	Title Case	Headings such as "Introduction", "Methods", "Results", "Discussions" and "Conclusions" are useful.
CONTENT	24-28 point 32 maximum Single spaced	Upper and Lower Case	The text should be brief throughout. Any description of methods should be simple and concise.

GENERAL ADVICE FOR THOSE WHO HAVE NOT PREVIOUSLY PRESENTED A POSTER

- The message that your poster contains should be clear and understandable without the requirement of oral explanation. Methods should be presented simply and concisely.
- Handouts can be very useful; however please note that these cannot be placed on the floor for safety reasons. If handouts or poster packaging is found on the floor the Conference Managers will remove it. If you wish to supply handouts you must hand these to delegates personally or place them in a plastic pocket or similar and attach to the poster board.
- After the title, the two most important panels are usually the Introduction and the Conclusion. On the basis of these two panels, a reader will decide whether to consider the poster details and perhaps talk to the presenter. These panels need to be very simple, concise and visually attractive.
- Results should be presented graphically if possible. Avoid large tables of data.
- Use pictures, symbols and colours. Figure legends are essential and should be short but informative. Each graph should have a short heading. For visual effect, we recommend that graphs be no smaller than 12cm x 18cm.
- A matt finish on photographs gives better visibility. Photographs should be no smaller than 12cm x 18cm.
- Use the space to attract your audience for discussion, not to present complex details of methods and results.

Headings should be a minimum of 48 point size

Whereas, 28 point size is suitable for text

Please note that **Velcro** is required to attach your poster to the board – 6 Velcro dots will be provided to you upon registration. If you require more Velcro than this you will be required to supply it.

LANGUAGE

Please note that the official Conference language is English. All presentations and discussions must be made in English.
